

FREE VIDEO EQUIPMENT!

VIDEO PRODUCTION IS THE BASIS FOR ALL WE DO AT TPC, SO WE OFFER OUR MEMBERS FREE RENTAL OF HIGH-END HD VIDEO CAMERAS UPON COMPLETION OF OUR CAMERA CERTIFICATION CLASSES. MAKE A MOVIE, DOCUMENTARY, TV SHOW, MUSIC VIDEO, WHATEVER YOU'D LIKE! AS LONG AS WE CAN BROADCAST YOUR PRODUCTION ON OUR STATIONS, THE RENTAL IS TOTALLY FREE, AND YOU ALWAYS OWN YOUR OWN CONTENT!

I WANT TO MAKE SOMETHING! HOW DO I GET STARTED?

The process is simple: come to orientation, pay for a membership, take a class, rent the equipment for free, shoot & edit your show, and then submit it for broadcast. The first step is to attend an orientation session. Orientation is a personalized process, so just give us a call at 919-960-0088 and we will set up a time for you to come in at your convenience. At orientation, you will find that we offer several different courses in media production, have quality equipment that we loan out to producers, and have editing facilities with Macs running iMovie, Final Cut Pro 7 & X, Adobe Premiere, and more!

I ALREADY MADE SOMETHING. HOW DO I GET MY SHOW ON THE AIR?

We are happy to air your ready-made content. We prefer to have shows submitted on DVD, but we can also transfer from other forms of media. Series programs need to be specific lengths, but 'oneshot' shows like events, documentaries, or short films can be as long or as short as you want. Just call Jeremy Taylor, Programming Coordinator, at 919-960-0088 to learn about the details.

CAN YOU SHOOT OR EDIT MY SHOW OR EVENT FOR ME?

Yes. We have a Production Services team that will produce, direct, shoot, and edit for you if the project is a good fit. Whether it be a performance, public service announcement, research video, or corporate-style video, we've done it all and we do it for very reasonable prices. For more information, contact our Creative Media Director, Ivan Ross, at 919-960-0088 or ivan@thepeopleschannel.org.

WHAT IS PUBLIC ACCESS TV?

In the United States, public access is an alternative system of television that originated as a response to disenchantment with the commercial broadcasting system and in order to fulfil some of the social potential of cable television. Public access was created to provide a free-speech forum, open to all on a first-come, first-served basis, without discrimination or favoritism based on content.
